

EOL Manuscript Submission Memo

William A Cooper

5/28/2021

The EOL Publication Submission form has been submitted for a journal submission titled, “On Measuring Sensible-Heat Flux With Airborne Thermometers.” The authors are William Cooper, Adriana Bailey, and Joshua Carnes. The following items required by that form are attached to this email:

1. Two reviews, by Jorgen Jensen and Don Lenschow.
2. The manuscript as modified in response to the reviews. This is provided in two forms:
 - A change-tracked version showing changes from the original (SHFdiff.pdf)
 - A normal-format version showing the manuscript as proposed for submission to Atmospheric Measurement Techniques (SensibleHeatFluxAMT.pdf)
3. Our responses to the two reviewers, indicating how we addressed their comments. Each response itemizes the reviewer’s comments verbatim and then adds how we have addressed them.

attachments:

- Review by Jorgen Jensen: review_cooper_etal2020_jensen.pdf
- Review by Don Lenschow: DHLcomments for cooper.pdf
- Change-tracked revision: SHFdiff.pdf
- Version for submission: SensibleHeatFluxAMT.pdf
- ResponseToJBjReview.pdf
- ResponseToLenschow.pdf
